

CURRICULUM VITAE

I have experience in customer service and hospitality roles, however, my true passion has always been in programming and development, and I have strong attention to detail and an inclination for problem-solving. To build upon this interest, I have recently graduated from a coding Traineeship as a full stack developer including completing 2 real-world projects successfully to specification using a wide range of programming languages and several personal projects. I have excellent customer service, communication, teamwork and organisation skills and a strong work ethic. I am looking forward to establishing a career in the development field where I can prove myself as an asset.

PERSONAL DETAILS

NAME: Hugh Pullman

RESIDES: Dorset

TRANSPORT: Public transport

RIGHT TO WORK: Right to work within the UK indefinitely (British Citizen)

CODING TRAINEESHIP

IT Career Switch Ltd

Coding Traineeship – Full stack developer
1-year program

During the traineeship I had to demonstrate a very competent level of the following programming languages and technical skills

- HTML5, CSS3, JavaScript
- PHP, SQL, React, jQuery, Three.js, Sass
- Python, Node.js, Bootstrap
- Command line Git, Github
- Remote API access

DEVELOPMENT EXPERIENCE:

Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio: <https://hughpullman.co.uk/>

Portfolio Project #1: “Gazetteer”

The specification was to reply to a website specification for a map-based app to provide information on countries, with a focus on a “mobile-first” development. Preferably using a framework, to then develop HTML, CSS and JavaScript with jQuery modules that use PHP server-based components to source data from third-party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: “Company Directory”

A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a “mobile-first” application to maintain a company personnel database (MySQL). Sign off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system’s ability to perform error-free.

PERSONAL PROJECTS:

E-Commerce Application – An e-commerce store allowing for browsing, filtering adding to cart and checking out of items. With access to provided through a login or google account connection. JavaScript, HTML, React, Sass, Node.js, MongoDB

Arcade Games – Several applications such as a Space Invaders copy, creating using pure JavaScript, HTML and CSS

Spotify Audio visualizer – An application using Spotify APIs to create a reactive UI allowing for song selection, playlist interaction, audio controls etc. Uses react-three-drei and react-three-fiber along with Three.js to create an audio visualization of the current song playing. JavaScript, HTML, React, Sass, Three.js

Animated Portfolio (For Graphic designer) – A portfolio website created for an Autonomous artist and graphic designer who wanted interactive pages with several animations and different effects mainly done using CSS. JavaScript, HTML, React, Sass

EDUCATION:

2016 – 2020

University of Nottingham
BEng Electrical and Electronic Engineering

2011 – 2016

Bryanston School
Three A-Levels (*Grade: A – B*)
11 GCSEs (*Grade: A* – C*)
Duke of Edinburgh Gold Award

CAREER HISTORY:

May 2021 – Oct 2023

POSITION HELD:

Pierhead Watersports

Seasonal Worker

- Organised equipment hire
- Safety boat driving
- General management of office and equipment
- Safety briefings and water sports help and guidance

Oct 2022 – Jun 2023

POSITION HELD:

Molly Malones Irish Bar

Bar Staff

Jan 2022 – May 2022

POSITION HELD:
